original title: TOTE
Projection (HD), Loop 1h, color, sound
© Matthias Fritsch, 2007

description

Matthias Fritsch shows last pictures in his video installation "The Dead". On a cemetery in Moskow Fritsch captured the photos of the deceased on gravestones. In this one-hour loop those, which lived once, move again at our eye past: a Mrs. with fashionable hair-style, an old farmer's wife with narrow lips, broken in courses and strictly after back combed hair, an old married couple. Then the camera zoomes closer to the small Medaillons, however the picture does not become sharper, since its dissolution is too small. Death extracted the deceased already long from our access.
